TOO MUCH SCALPING

RUSH TO GRAF PROFITS DEPRESSED THE PRICE OF STOCKS.

Foreign Demand Fell Off, Assisting the Decline-Indianapolis Markets Affected by the Wenther.

At New York yesterday money on call was easy at 262% per cent, the last loan being made at 3 per cent., closing 3 per cent. Prime mercantile paper, 4651/2 per cent. Exchange easier, with actual business in bankers' bills at \$4.89@4.8916 for demand and \$4.87% 1.88 for sixty days; posted rates, \$4.881/204.90; commercial bills, \$4.87%.

It is not to be wondered at that there should be a break in the advancing column, which so soon after a most dis-heartening setback had made so sharp a recovery of lost ground. The small operators who materially assisted in the rise in stocks acted largely on the faith in the leaders of the market, and it is not surprising that, as they did to-day, they should endeavor to secure part of the profits of their ventures and take a review of the situation. It was partly due to realizing,

sales, to a heavy decrease in the volume of foreign purchases and possibly a desire on the part of the bull clique to let prices go down a few points with the view of increasng the short interest in market that share values preclated to-day. There was market that share values depreciated to-day. There was no imarked pressure to sell except, perhaps, in Sugar and the grangers. The first-named stock given was first and the grangers led in the general list in the reaction. There was no evidence of weakness at the opening, and during the first hour of business prices advanced, but during the second hour there was sharp selling of Sugar here on rumors that insiders were liquidating, and the shares took a downward turn, the greater number of the shares traded in participating in the recession. The depression continued unchecked during the early afternoon, but around delivery there were partial recoveries, speculation becoming decidedly irregular in the final dealings. At the lowest point to-day the declines from

cidedly irregular in the final dealings. At the lowest point to-day the declines from the high prices of the morning were 1% in New Jersey Central, 1½ in Delaware & Hudson and Cordage guaranteed and 1½ in the other shares which joined in the downward movement. Rallies in later trading lessened the losses a fraction. There were other specialties which were strongly held throughout which show gains, including St. Paul, Minneapolis & Manitoba, 3; Pullman, 2; New York, Chicago & St. Louis ing St. Paul, Minneapolis & Manitoba, 3; Pullman, 2; New York, Chicago & St. Louis second preferred, Wheeling & Lake Erle preferred and Hocking Coal, 1½, and Leather preferred and Iowa Central preferred, 1 per cent. Distilling was well supported, and made a gain of 1½ per cent. on Tuesday's closing. Trust receipts were dealt in for the first time, and sold 1 per cent. above the stock, owing to the fact that the first 1 per cent, installment of the assessment under the reorganization plan had to be paid before the issue of trust receipts. There was more buying in General Electric for short account on a report that the forthcoming annual statement will be favorable. The market was unsettled at the close.

There was a renewal of activity in the bond trading, and considerable strength was displayed in some issues. The trading was somewhat irregular at times, but prices generally recorded an advance on the day. generally recorded an advance on the day. The aggregate sales were \$2,414,000, of which \$292,000 were Texas & Pacific seconds. Atchison fours registered sold at 63%, against 73½ on July 7. Southern Pacific dividend scrip was traded in at 26%, against 40 on Sept. 12. A final recovery was made to 30%. Other changes of note are: Advances—Missouri Pacific consol sixes, 4 per cent.; Keokuk & Des Moines firsts and Ohio Southern fours, 3: Northern Pacific thirds, 13%; Northern Pacific cellateral trust sixes, 13%; St. Joe & Grand Island first trust receipts, 1½; Union Pacific gold sixes, 1½; Union Pacific and Denver & Gulf firsts, 1½, and Brooklyn Elevated firsts, Cleveland & Canton firsts, Kanawha & Michigan firsts, Kanaws Pacific consols, Oregon Navigation

LOCAL GRAIN AND PRODUCE. Despite Unfavorable Weather Trade Is Fairly Active.

The raw weather of yesterday was hardy conducive to active trade, still mail orders were liberal, and the morning trains brought in a number of buyers. Grocers speak of their business as being unusually good the last few days, and dry-goods men are doing a fair business despite the unseaschable weather. On Commission row there is still complaint of dull trade. The fact is that the number of commission houses has so increased that with an ordinary business there are so many to divide it among that the volume of trade of each is affected more or less. The supply of apples is meagre and most of the stock inferior. Sweet potatoes are plentiful, but not desirable for table service, a large per cent, of the holdings having been frosted. Irish potatoes are in good supply, and good stock

potatoes are in good supply, and good stock is selling at 75 cents per bushel. Oranges in moderate supply, and some of the fruit choice. Cabbage and onlons are still in the luxury list. Eggs are weak at quotations. Poultry is steady and provisions in good request, with prices firm.

The local grain market was more active yesterday than on Tuesday. Corn is in good request. Track bids on the several cereals yesterday ruled as follows:

President Baggley Resigns.

PITTSBURG. March 20.—Ralph Baggley, president of the United States Glass Company, has resigned and D. C. Alpley, formerly president of the company. has been lected to the position. The United States Flass Company has a complete monopoly in the flint glass trade, being a combination of nearly all the factories in the country. For the past eighteen months the Flint Glass Vorkers Union has been on strike against the company for recognition and the union cale. The strikers believe that the new diministration will adopt a more liberal poly with the workmet, and that the strike ill be terminated sown. Peor health is the ason assigned for Mr. Baggley's resigna-President Baggley Resigns.

ALL GRAIN WEAKENED

WHEAT WENT OFF 1-40 AFTER AN UNEXPECTEDLY FIRM OPENING.

Provision Market Was Shaky, and the Number of Sellers Forced All Lines to Decline.

CHICAGO, March 20 .- After an early adance wheat weakened to-day on bearish figures from the Agricultural Department. May closed 1/c lower. May corn lost 1/4c, May oats %c, and provisions finished slightly lower.

Wheat at the opening was strong enough to create a mild surprise in the trade. A rise at the start of from 1/4c to 1/4c per bushel was unexpected from the fact that over a considerable area of the winter wheat belt copious rains were shown. The chief reason for the strength was probably due to speculative situation. The seiling yesterday had been of a too sanguine character, and it took but little to alarm the scalping shorts. Steadiness at Liverpool this morning in the face of %c decline here yesterday and a slight improvement in the price of wheat and flour as cabled from Paris at the opening, proved enough to give the market an upward push, which set the smaller shorts to buying and created a nervous suspicion of the wisdom of being short which lasted for over an hour. The Minneapolis and Duluth receipts were 281 cars, against 306 cars the year before. Of co-day's receipts 91,948 bushels were winter wheat, compared with 45,497 bushels of winter wheat received at the same places a week ago. That increase in the receipts winter wheat was one of the bearish. features of the day's movement, The market was moderately active for an hour and then very dull during the next hour and a half, in which time the price for May had gone from 56c to 564/4/56% and back again to 56c. An addition to the March report of the Washington Agricultural Bureau statistician, which estimated the wheat prostatistician, which estimated the wheat production of the world at 163,000,000 busnels more last year than in the year before, caused the market to become quite weak in the last half of the session. May sold at 55%c, although closing cablegrams quoted advances of ¼d to ¼d at Liverpool, 6d per sack for flour at London, the equivalent of ½c per busnel for March wheat at Paris and I mark rise, or %c per busnel at Berlin. The close was weak at 55%65%c.

Corn opened strong, and after advancing %c above the closing price of the previous afternoon, it lost its improvement. The opening for May was 47%c, it rose to 47%c early in the day and gradually began to sink from that point until near the close, when it touched 4% and there were sellers at the close at 27%c. The dealers who had been chiefly instrumental in raising the price for three or four days were themost conspicious sellers on the bulge early. The Baltimore and Newport News business was said to have been made possible only by a cut in rail rates of 6 cents per one hundred pounds. Receipts to-day were 89 cars, and 160 are estimated for to-morrow. hundred pounds. Receipts to-day were 89 cars, and 160 are estimated for to-morrow.

Oats were quiet and weaker. Lindeman was reported to have bought quite freely of May. Offerings of same were liberal and scattered. The close showed May at of May. Offerings of same were liberal and scattered. The close showed May at 29%(29%) Early, 29% was touched.

The provision market was dull and rather weak. The hog receipts were 21,000 instead of 24,000 as estimated, and 33,000 predicted for to-morrow. At the close to-day the May futures, as compared with yesterday, are: Pork and lard 2½c lower, and ribs unchanged. Packers were moderate sellers and demand very slack.

Estimated receipts for Thursday—Wheat, 62 cars; corn, 160 cars; oats, 164 cars; hogs, 33,000 head.

Wool.

BOSTON, Mass., March 20,-The African Wool and Coton Reporter will say to-mor-row of the wool trade: The reported strength row of the wool trade: The reported strength of the markets abroad has not yet been reflected in any appreciable way here. Although trade has ruled very quiet, manufacturers have found it impossible to obtain concessions in values from those current a week ago. Wool is low, in comparison with other staple articles, and it is lower here than anywhere else. Stocks of domestic wool here are not large and yet there appears to be enough to meet the dmand. appears to be enough to meet the dmand, which in itslf is not urgent, manufacturers appears to be enough to meet the dmand, which in itslf is not urgent, manufacturers buying mostly in small lots. The business of the past week has been of a retail character, very few good sized lots having been moved. The aggregate of transactions, in fact, is even less than that of last week. Holders of wool, however, are in some quarters quite firm in their views and a case is cited where a manufacturer who came into the market and made some offers, none of which were accepted by the dealers, went home without securing his wool. It is beginning to be believed even by some of those who had been looking for a further decline in values, that wool has got to a point where the bottom can be felt, and that any further change in values will be upward rather than downward. It is already easier to get asking price for wool than it was a week or two ago. The sales for the week amounted to 1,235,000 pounds domestic and 562,000 pounds foreign, making a total of 1,787,000 pounds against a total of 2,997,200 for the previous week and a total of 2,912,500 pounds for the corresponding week last year. The sales since Jan 1, 1895, amount o 24,846,050 pounds responding week last year. The sales since Jan. 1, 1895, amount o 34,846,050 pounds against a total of 28,832,100 pounds a year

LONDON, March 20.—At the wool auction sales, to-day, 13,220 bales were offered, of which 400 were withdrawn. Good quality was offered and met with excellent competition all around. The general run of prices was 10 per cent. over the closing rates of the last sales, American buyers paying lower figures than usual. The American purchases, so far, amount to about 5,000 bales.

CHICAGO, March 20.—The cattle market to-day was a "hummer." With offerings of scarcely 9,000, and all classes of buyers hunting for stock, holders were easily in a position to make advance in prices. Some salesmen parted with their holdings at an advance of more than 5c, while others claimed to have got an advance of 25c. The average gain in the dressed beef and shipping sorts was 15@20c, and in other descriptions 10@15c. It was a very uninviting bunch of steers that could not be turned over at better than \$4.75. There was any number of sales around \$6, and it is more than likely that a fancy article in the heavy-weight class would have crowded Elsewhere. more than likely that a fancy article in the heavy-weight class would have crowded \$6.50. The buoyancy of the market was a consequence of recent, present and pros-

sconsequence of recent, present and prospective small supplies.

The hog market opened steady at yesterday's closing quotations, and later in the morning was weak and unevenly lower, the latest sales showing a good big nickel off. There was one trade at \$4.80 and one or two at \$4.75, but to all intents and purposes \$4.70 was the top of the market. Packers, as on the day before, were bearishly inclined, and as soon as shipping orders had been filled they forced prices down to the extent above noted. Most of the 200 to 400-pound hogs changed hands at \$4.504.65, and \$4.3504.55 took nearly all the lighter weights. Receipts of sheep and lambs continuing light and the demand maintaining a good degree of activity, the market soon showed great firmness. Competition for the better grades was keen, and the best prices of the year were paid. Sheep of choice to extra quality were quoted at \$4.5065, and lambs sold as high as \$5.75. There were sales of culls at \$2.2562.75. The bulk of the trading was \$3.7564.50 for lambs at \$5.2565.60 for sheep. Receipts-Cattle, 8,500; calves, 700; hogs,

Newspaper Accuracy. To the Editor of the Indianapolis Journal: In a recent issue you say: "Readers of

illustrated magazines are cometimes at a loss to know what relation the pictures bear to the text, and a suspicion arises that the artists have not carefully read the work they profess to illustrate," and you then follow with examples of the truth of the above. Close readers have noticed this weakness in publications of slow production, and far more frequently in newspapers. And so it has come to be considered that this department of the "illustrated" newspaper is purely for sensational purposes. A local evening newspaper, noted for its penchant for characterizing all morning newspaper reports as "partisan," on Tuesday published a double-column "picture" of a man who had committed suicide. He was shown as sitting in an arm chair, and labeled "The body when discovered." The hand in which the pistol was held was hanging down clear outside the chair. Yet in the descriptive matter we are told in

The hand in which the pistol was held was hanging down clear outside the chair. Yet in the descriptive matter we are told in regard to the body: "When found the revolver was still clutched in the right hand. The two hands were crossed on the lap." This reminds me of a picture I cut from a local paper depicting a suicide in the act of running a rod into his heart by charging against a stone wall, in which the rod is shown pressing against his right breast, instead of the left.

On a line with this inaccurate picture work the inappropriate headlines should be mentioned. For instance, in the same paper first mentioned, only the issue preceding, is the large head line, "Killed by a motor car." while the description which follows shows that the man was not hurt by a motor car, but, through his own contributory negligence, by the trailer car behind the motor.

All this may not be of much importance, but in these competitive newspaper days of self-adulation every little thing which makes for actual perfection deserves attention.

THE INDIANAPOLIS

Daily, Sunday And Weekly

The Journal is first of all a news paper. Its primary object is to publish the news, and to procure this it spares no pains or expense. Besides the service of the Associated Press, which covers foreign countries as well as the entire United States, it has a corps of special correspondents, who give attention to those events and occurrences that are likely to be of particular interest to the Indiana Public.

Its Washington Bureau

Was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of a gentleman well acquainted with the local business and political issues.

It has a correspondent in every tow of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter.

Its staff of city reporters is large, and its local departments are unexcelled. As a newspaper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all its departments. With all, it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan bias.

THE SUNDAY

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a variety of choice reading matter that satisfies the most exacting taste.

The Indiana State Journal

(Weekly Edition) is a large 56-column paper, carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1.00, with re duction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Republican doctrine.
